## PART-04 图表作文

# 第四节---图表作文

- 写作图表作文时，首先理解图表类型和信息，分析数据趋势，然后按照“引言 - 主体 - 结论”的结构组织文章。使用描述趋势和比较的词汇，注意使用连接词。虽然需要引用数据支持观点，但不要过多引用，以免文章过于枯燥。选择关键数据引用，其他数据可以用概括性语言描述。
- 理解图表：首先，你需要理解图表的类型（例如，柱状图、饼图、线图）以及它所表示的信息。你需要知道图表的标题、坐标轴的标签、图例等元素的含义。
- 分析数据：观察图表中的数据，找出数据的趋势、模式或者异常。例如，数据是否随时间上升或下降？是否存在明显的峰值或谷值？
- 组织内容：在写作时，你可以按照“引言 - 主体 - 结论”的结构来组织你的文章。在引言中，简单介绍图表的主题和来源；在主体部分，详细描述图表中的数据和趋势；在结论部分，总结你的发现，并可能提出一些推测或建议。
- 避免滥用数据：虽然你需要引用图表中的数据来支持你的观点，但是不要过多地引用数据，以免文章读起来过于枯燥。你可以选择一些关键的数据来引用，而对于其他的数据，可以用一些概括性的语言来描述。

# 例一范文

## Changes in People' s Diet

As can be seen in the table, there have been great changes in people' s diet in the past five years. Grain used to be the Chinese main food, but now it is playing a less important role in people' s diet, while the consumption of some high energy foods, such as milk and meat, has increased steadily.

What caused these changes? I think the reasons are as follows: First,the open policy brings the people opportunities to earn a lot of money.Second,people nowadays pay more attention to the structure of their diet.They are seeking the most reasonable diet structure, which will do good to their health.

From the above, we can see that,with the development of the country,the level of the Chinese people' s life has changed in the past five years.I' m sure there will be greater changes in the future.

而是通过数据把要说明的问题点了出来。

2. Analyze possible reasons for these differences.
3. Predicate future tendency.

American students	50%	35%	15%
Chinese students	90%	5%	5%

# 例二范文

## **Income Sources Between Chinese Students and American Students**

Income sources of Chinese students are quite different from those of American students. In China, students get 90% of their money from their parents while in America, only 50% of students' money is provided by parents. In addition, Chinese students earn only 5% of their money from part time jobs and 5% from fellowship or scholarship while income from these two resources for American students takes up 35% and 15% respectively of their total income.

I think there are probably three reasons for their differences. First, because of the influence of different social and family values, Chinese students have formed the habit of asking for money from their parents while American students have developed more sense of being financially independent. Second, most Chinese parents devote too much care to their children and they would rather save up to afford their children's education rather than encourage them to take part time jobs. But in America, many parents pay more attention to developing the students ability of self reliance, so they encourage their children to find part time job to earn some money by themselves. Third, since America is more developed than China, it is relatively easy for students to find part time jobs. In China, such opportunities are rather rare.

I believe with the development of China, more and more Chinese students will realize and pay more attention to the necessity of self dependence. In addition, more and more opportunities will be provided for them to take part time jobs. So more students will go out of the ivory tower to broaden their knowledge and to become the master of their own lives.
